Minimum Message Length and Kolmogorov Complexity

C. S. Wallace and D. L. Dowe

Presentation by Alkis Gkotovos

Overview

Minimum Message Length and Kolmogorov Complexity
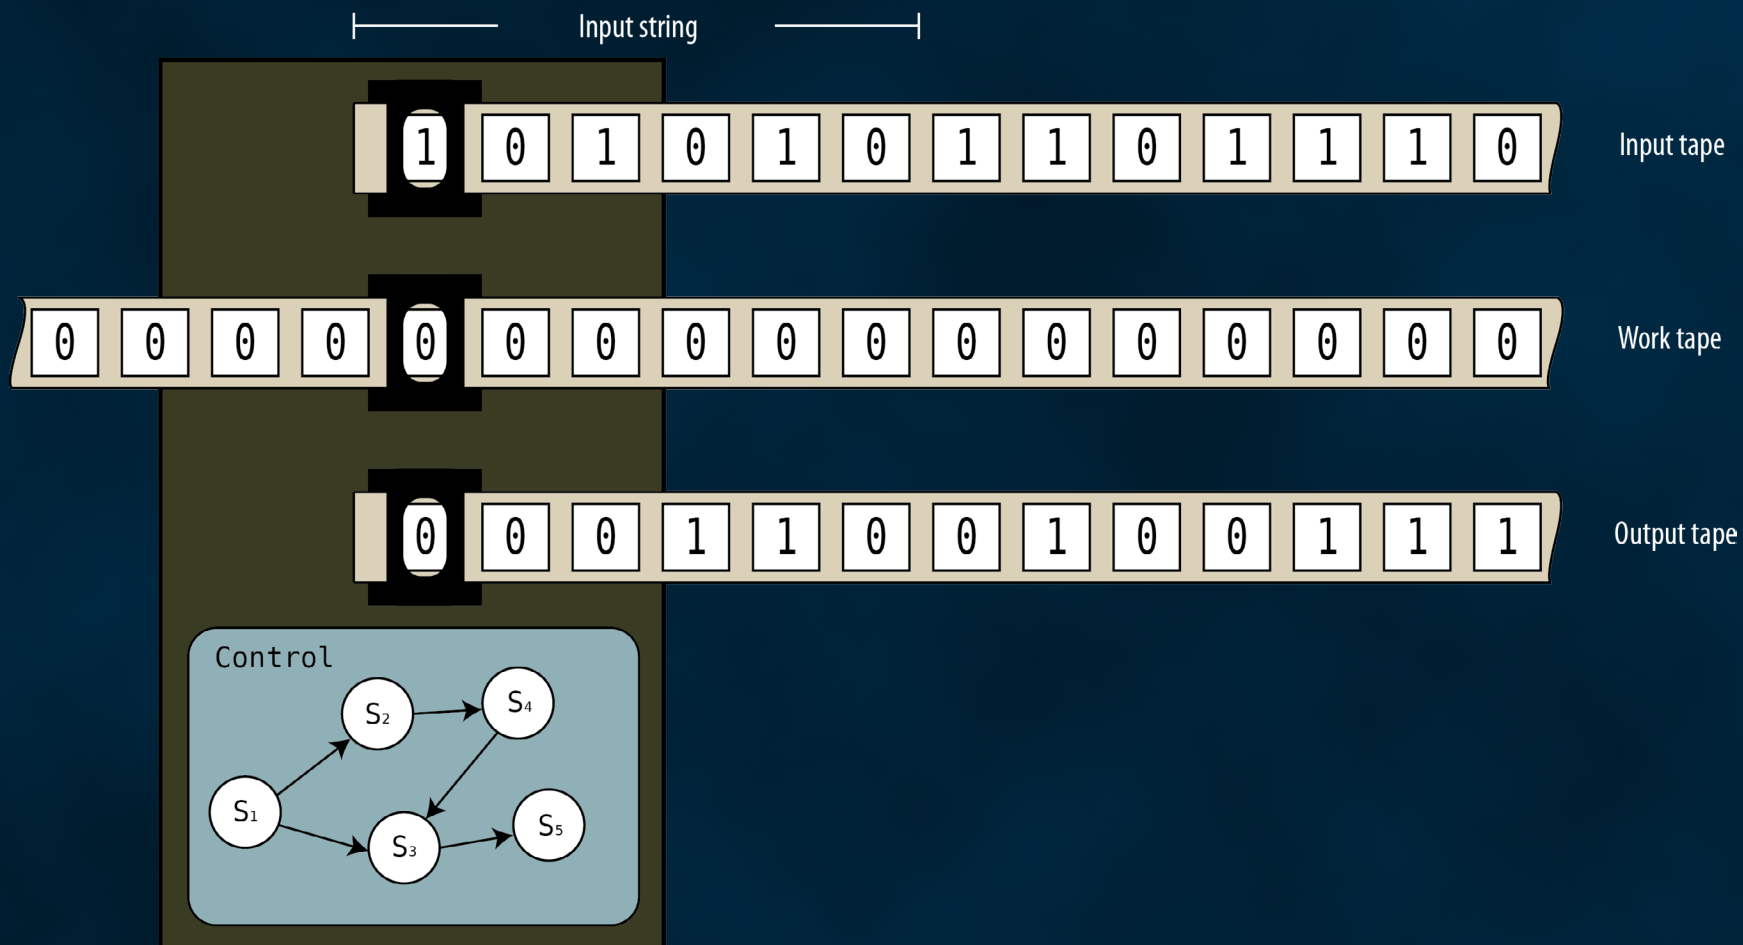

Prefix Kolmogorov complexity

$$K_T(x) = \min\{l(p) \mid T(p) = x\}$$

\<Placeholder\>

Prefix Kolmogorov complexity

$$K_T(x) = \min\{l(p) \mid T(p) = x\}$$

Another stupid equation

$$a = b = c$$
